

Safe & Well Waypoint

Good afternoon,

As the Minister of Education announced on Sunday, the province is working to re-open select child care program(s) for employees in essential services. As a way to keep everyone up to date and address need, the Simcoe County Child and Community Services Department has created a survey to identify need and in which areas of the County. If you are experiencing child care requirements at this time, please take a few minutes to complete the survey.

The survey can be accessed by following this link: <https://survey.simcoe.ca/surveys/emergency-child-care-needs-assessment-survey>

We are encouraging everyone to complete the survey as soon as possible. They will be calculating the initial responses at the end of the day tomorrow, however, the survey link will remain active so that they can continue to monitor changing needs.

They will also be sharing information regarding the possibility of child care facilities opening, the process for application and any other items related to that. I will continue to communicate that information through Wellness communications as they arise.

Thank you

Liz
